

QUALITY, ENVIRONMENT, HEALTH AND SAFETY POLICY

ESTUDIO CERÁMICO S.L. is a company focused on the commercialization of ceramic products.

Within this scope of activity, the senior management is committed to demonstrating leadership in quality, environment, health, and safety at work, which are the main pillars upon which our policy is based:

- Meeting the needs and expectations of our customers, consolidating trust in ESTUDIO CERÁMICO S.L. with the aim of fulfilling their requirements.
- Promoting a process-based approach, understanding the organization's context, and applying risk-based thinking to minimize them and maximize opportunities.
- Effective management and control of processes, through the establishment and monitoring of indicators and objectives.
- Achieving continuous improvement in management and performance in terms of quality, environment, health, and safety at work.
- Providing safe and healthy working conditions.
- Ensuring compliance with applicable legal requirements.

Ensuring that all relevant individuals are aware of the policy and objectives is achieved through dissemination at all levels of the organization by various departmental DIRECTORS and the distribution of relevant documents to each level in the various positions.
